Saturdays!**

Achieve Competitive Success with the APICS CSCP Program

The APICS Certified Supply Chain Professional (CSCP) program is the most widely recognized educational program designed for operations and supply chain management professionals. Demonstrate your mastery of supply chain management best practices by obtaining your APICS CSCP designation.

The Hamilton Chapter of APICS, The Association for Operations Management, is offering the APICS CSCP Preparation Course that will expand your supply chain knowledge and help you prepare for the APICS Certified Supply Chain Professional certification exam.

Who can benefit from the program?

The APICS CSCP program is ideal if you are

- Responsible for supply chain activities within your organization
- Interested in increasing your knowledge and expertise in the field of supply chain management
- Looking to advance your career through certification or professional development
- An employer or manager wanting to create a common standard of competency across your organization
- A professional who is consulting or teaching supply chain functions
- A CPIM needing certification maintenance points.

"Enrolling in the instructor-led CSCP exam preparation course turned out to be the best decision I could have possibly made. The instructors have expert knowledge of the material and practical application experience they willingly share. The classes are well paced, interesting and highly effective knowledge transfer sessions. Although the training materials are well structured and provide comprehensive coverage of the supply chain management body of knowledge, it was the in-class instruction and interactions that made the concepts real and memorable for me".

- Keith Jawahir Ph.D., P.Eng., CSCP

Course Components

Achieve a uniform level of knowledge and understanding by using the APICS CSCP Learning System as part of an APICS CSCP instructor-led course. Each participant will receive printed modules and access to online learning components as part of their APICS CSCP Learning System.

Print components

- Four easy-to-understand modules with more than 800 pages of content
- A book of class visuals used by the instructors
- Progress check questions at the end of each section to ensure that you understand the concepts

Online review and practice testing tools

- **Pretest** to determine baseline knowledge level and prepare a study plan
- **Progress check questions** after each section to test your understanding of the concepts
- Test bank of more than **600 questions**
- A timed **posttest** to determine progress
- **eFlashcards** to test knowledge of relevant industry terms
- An online **glossary**
- Access to online **Information Center** offering test-taking tips, feedback feature, and links to valuable resources.

Visit www.apics.org/cscp for a free demo.

Program Schedule

Classes will be held in Burlington, Ontario. The Introduction session will be held on Thursday evening from 6:30 to 9:30. All other Classes will be held on Saturdays, from 8:00 a.m. until 5:00 p.m. Lunch will be provided and is included in the cost.

Course registration deadline has been extended to **March 29th**.

Class schedule will be delayed accordingly. Details will be provided to registrants following the deadline.

Exam Schedule (Paper & Pencil Exams)

Fri 04/23/10—Eligibility Application Deadline*
Fri 05/07/10—Exam Registration Deadline
Sat 06/19/10—APICS CSCP Exam

*Students must provide proof of eligibility to sit for the exam before beginning this program. For information and the APICS CSCP Eligibility application, see details at <http://www.apics.org/Certification/CSCP/cscpexam.htm>.

About the Instructors

Pam Somers, CPIM, CIRM, CSCP, and **Eric Somers**, CPIM, CIRM, CSCP, are dedicated operations management professionals with more than 40 years of combined comprehensive training and practical experience, including many years in the aerospace and defense industry.

The Somers' careers have included positions in quality assurance, operations management, and business systems implementation. Their experience includes both operational and management roles, as well as project and consulting assignments, as employees and as client trainers, consultants, and project managers for providers of fully integrated enterprise solutions.

Pam and Eric work together as educators, trainers and consultants, offering progressive operations and supply chain strategies, including systems implementation, JIT/lean, total quality management, and sales and operations planning, with a particular focus on managing change.

Both active APICS volunteers and trainers, Pam and Eric have taught many students in various programs, including Instructor Development, the Fundamentals of Materials and Operations Management, and the APICS certification programs. They have developed and delivered numerous presentations and workshops on both technical and soft-skill topics.

The CSCP certification exam is now available via *computer-based testing (CBT)* as well as in paper and pencil format.

The next CBT window in 2010 is July 3rd – August 7th

For CBT eligibility* and registration deadlines, visit www.apics.org/Certification/CSCP/cscpexam

Registration
